

Inorganic Chemistry Symposium: Molecules to Materials @ UC Davis 2021

-Schedule of Events-

9:00 AM Opening remarks

9:10 AM *Invited Speaker* - Prof. Brandi M. Cossairt
University of Washington

Inorganic Synthesis to Transform Nanocrystal Form and Function

10:00 AM *Invited Speaker* - Prof. Trevor Hayton

University of California Santa Barbara

Using NMR Spectroscopy to Probe Metal-Ligand Covalency in the Actinides

10:50 AM Break

11:00 AM *Invited Speaker* - Prof. Natia L. Frank
University of Nevada Reno

Optically-Gated Spin States via PISCES towards Quantum Information Science

11:50 PM Break

12:00 PM Poster Session (and Lunch)

1:30 PM *Invited Speaker* - Prof. Lionel Cheruzel

California State University – San Jose

Harnessing P450 biocatalysis with Ru(II)-diimine complexes

2:20 PM *PLENARY SPEAKER* – Prof. Polly L. Arnold

Lawrence Berkeley National Laboratory, University of California Berkeley

Lecture Title TBA

3:30 PM Presentation of Prizes, Closing remarks
